Pašam savu pirtiņu technical information for pirtis

Each pirts is suited and adapted both for personal use and for professional pirts master's work.

Foundation:

- No complex foundation construction is required
- Can be placed on posts, paving stones, blocks, etc.
- No building project is required (up to 60 m² building area) and approval with the building authority is simplified

Floor:

- 150 mm insulation
- Coniferous wood board flooring in the lounge rooms
- Waterproofed floor in the steam room with or without tiles (optional)

Walls:

- Wooden frame with a total width of 200 mm
- Wall insulation 100 mm
- Exterior: board cladding (unedged *herringbone* style) or rabbeted boards (spruce, pine)
- Lounge room: tongue-and-groove board cladding (spruce, pine)
- Steam room: tongue-and-groove board cladding (black alder, aspen, or linden)

Ceiling:

- Thermal insulation 200 mm
- Ceiling height 2.20 - 2.40 m
- Tongue-and-groove board cladding in the lounge room (spruce, pine)
- Tongue-and-groove board cladding in the steam room (black alder, aspen, or linden)

Benches:

- Width 80 cm
- Height 82 - 90 cm
- Comfortable, liftable for easy cleaning, with a retractable step
- Benches can also be made in a different width upon choice and need

Roof:

- Metal, bitumen shingles (standard), or any other covering of the client's choice

Electricity:

- A fully completed electrical installation is set up in the pirts

Water:

- Pirts is equipped with a fully built water supply system (hot, cold) and a water drainage trap

Ventilation:

- Ventilation is designed individually for each pirts to achieve the most efficient natural air exchange possible

Pirts stove:

- The pirts stove is adapted individually for each pirts
- Black metal stoves are used (standard) or suMMit cast iron stoves with a service life of at least 30 years (more expensive, but very high quality, with a long service life, steady heat, and steam)

Construction and delivery:

- Construction is carried out on-site at the client's location or delivered from our production facility
- Delivery cost is to be agreed individually for each pirts and depends on the transportation distance
